

giroflex 353

# IT'S SMART, FULL OF VERVE AND IDEAL FOR EVERYONE.

The giroflex 353 combines fresh design and perfect seating comfort with the highest ecological standards.

**A real eye-catcher:** thanks to its attractive appearance, the giroflex 353 is sure to impress design fans everywhere. Its elegant shape and wide range of colours create fresh highlights. It's also good to know that such striking appeal does not have to be expensive, for the giroflex 353 offers outstanding quality at an affordable price.

**It fits everyone:** with the giroflex 353, everything is focused on the ultimate in seating comfort. Thanks to its unique combination of an automatic mechanism and individual settings, everyone who uses it will feel comfortable immediately.

**Sustainable and forward-looking:** the giroflex 353 is also a trendsetter when it comes to environmental awareness. The giroflex 353 is practically 100 % recyclable, satisfying the strict guidelines of the 'Cradle to Cradle' label and its stringent ecological and sustainability criteria for everything from the materials and production methods used to its disposal.

**giroflex 353 – swivel chair:** available with 3D spacer fabric or upholstered backrest. Optionally available with adjustable forward seat tilt, coat hanger and headrest. Optionally available with fixed, 2D or 4D armrests. With 5-arm base in black plastic or in polished aluminium.

giroflex 353 is available in various cover materials and colours, also with customer's own fabrics. For basic configurations, cover materials and pricing see current price list. The colour range shown here is not binding. Original colour samples are available at any time.

**giroflex353:** grey days at the office are now a thing of the past – the giroflex353 offers colourful highlights and brings a breath of fresh air into the office. It combines the maximum in seating comfort and top quality while offering extremely good value for money.

**giroflex 353:** whether it be for everyday business life, in a home office or at a conference – this swivel chair always cuts a good figure. And thanks to its point-synchronized sequence of movement and automatic mechanism, adjusting it to the different needs of each user is child's play.

**giroflex 353:** you can always rely on the qualities of the giroflex 353. It cleverly combines the latest ergonomic findings with a fresh interpretation of design. In addition, the optionally available headrest guarantees perfect posture throughout the working day.

With 'Cradle to Cradle' Giroflex brings together what belongs together: quality, design and ecology.

*Anyone who works sitting down should be able to have the confidence that his or her chair is free of harmful substances. This is one of the reasons sustainability has been a part of everything we do at Giroflex for decades and is constantly being expanded.*

**'Cradle to Cradle': Giroflex shows how it's done.** Like the giroflex 656 generation, the giroflex 353 shows how important the clever, careful and economical use of resources is for Giroflex: with the label 'Cradle to Cradle' all models comply with stringent conditions – from material purchasing, development and production to recycling. Nearly 100% of their components flow back into the production cycle.

**Many steps, clear goals: a tradition of ecology.** Mono-material separation, the first fully recyclable model range in Europe and the environmental standard ISO 14001: Giroflex has been a pioneer in office ecology since the 1980s. New facilities and targeted measures have resulted in massive savings in CO<sub>2</sub>, water, electricity and gas. Short distances need less fuel: nearly everything is produced in-house or nearby. In addition, Giroflex disposes of office chairs properly and if requested supplies its products with the 'climate neutral' label. And finally, suppliers are also rigorously checked.

# Carefree sitting on the giroflex 353 – it's all a matter of automatic adjustment.

*From long experience Giroflex knows the high priority of ergonomics in the workplace. Only if you are sitting correctly and actively do you really feel at ease and can give your best every day. The giroflex 353 can be perfectly adapted to personal needs from A to Z. This is assured by a variety of settings for dynamic sitting.*

- The backrest is available in upholstered or 3D spacer fabric versions. Thanks to the multi-zone spacer fabric on the backrest, the lumbar support has been noticeably optimized.
- The backrest's materials and construction deliver the desired support in every sitting posture while promoting lateral movement. The height-adjustable backrest makes it possible to locate the lumbar support in 12 ergonomically correct positions.
- The seat height adjustment works continuously over 12 cm.
- Optional seat tilt adjustment up to 3 degrees forwards provides additional comfort.
- Can be optionally equipped with 2D adjustable headrest in mesh or upholstered version.
- The Automatic Move mechanism allows a point-synchronized sequence of movement, lockable in four locking positions.
- This mechanism offers the comfort of automatic adjustment. The automatic adaptation to the body weight is effective for 80% of all users. Individual needs are accounted for with a three-stage fine tuning capability in each direction.
- Fixed and adjustable armrests (2D, 4D and 4D NPR) for individual adaptation. All adjustable armrests are equipped with Softpads.
- The proven dual-zone seat profile guarantees maximum legroom and reduces pressure on the thighs, helping to improve blood circulation.
- The seat depth can be adjusted in 8 locking positions
- Pictograms on the control levers simplify the operation of the adjustment mechanisms. All settings can be adjusted easily while sitting.

# Swiss made: Swiss quality is worth it!

**Since 1872, Giroflex has been working in Switzerland, in Koblenz, with the highest standards of quality and ecological compatibility.**

This will remain so in future too. Because the concentration of the core competencies with qualified staff in one place is worth it for you. Here, with a great deal of work done by hand together with state-of-the-art manufacturing technologies, first class chairs and armchairs are made that are in daily use worldwide and support their owners with the greatest possible comfort.

**5-year guarantee:** Giroflex provides a 5-year full warranty on its quality products covering construction, mechanism and workmanship.

**Services:** We clean, repair and maintain office chairs on your premises or ours, analyse your seating furniture, advise you free of charge and ecologically dispose of office chairs of all brands.
